Supplement #14
R. Olmstead #1419

On 12-17-18 I received Sherill's cellphone from Det. Jamka along with the extraction report. He advised that not all the information could be obtained from the cellphone and that messages such as those on Facebook messenger would not be in the report. I reviewed the report and located nothing noteworthy. I then viewed Facebook messenger on the phone itself and located numerous conversations. I observed a string of messages Sherill had with a female named Maria. On 10-19-18 Maria asked if she could "get" to which Sherill responded by saying "yes" and they made arrangements to meet. On the same day later in the afternoon Maria advised Sherill that she was aware that Sherill didn't usually do this but requested "5 bucks worth". Sherill responded by saying that she didn't know what she was talking about. On 10-20-18 Maria asked Sherill if she could "front" her a "dub", to which Sherill once again responded by saying that she didn't know what she was talking about.

On 01-29-19 I went back through the numerous Facebook messages in an attempt to locate further conversations. I located the following conversations on Facebook Messenger.

I observed that Sherill and Raquel were in contact with each via messenger on 12-04-18. Further, on 12-02-18 Raquel advised Sherill that the "kid" behind her was providing "H" (Heroin) to another individual.

On 12-01-18 Sherill received a message from someone named Jamie in which he asked her if she was home also telling her "I need". Sherill responded advising that her "lawn moer" was already lent out but that he could still come over.

On 11-29-18 Sherill received messages from someone named JD. JD asked Sherill if she would like to do a "shot" and followed up but saying that he did not think Sherill had enough. Sherill responded by saying that she did not know what he was talking about. Sherill then sent a picture to JD which showed an internet article advising that a "Facebook Drug Task Force" would be monitoring messages and arresting those who buy and sell narcotics.

On 10-25-18 Sherill received a message from someone named Andrew asking if she could "throw" him something after work. Sherill responded by saying that she didn't know what he was talking about.

I then observed a conversation with someone whose name on Facebook was Hector. The conversation between the two ranged from September 2018 up until 12-05-18, the date of the search warrant. In reviewing the conversation between the two it is clear to me that the two spoke of illegal drug transactions often referring to shoe sizes, tickets or numbers. In my knowledge, training, and experience I know that it is common for those who buy and sell illegal drugs to typically disguise their conversation when referring to said illegal drugs in order to avoid detection by law enforcement. Sherill's phone was on airplane mode to avoid the remote deletion of data, thus causing older conversations to not load. The conversation that did load made it clear that Sherill was at least receiving illegal drugs from "Hector" from September of 2018 up until the date of her arrest. On 12-04-18 Sherill made arrangements with Hector to meet. Further Hector inquired as to the quality of what she had got last time. In reviewing their conversation, coupled with Sherill's admission of just re-upping, it appears as if she had retrieved the Methamphetamine from "Hector" the day before her arrest. Sherill advised Hector on 12-05-18 at 0131 hours that

✓ she had made it home hours ago. In reviewing their conversation Sherill mentioned traveling to Tucson and mentioned several roads in Tucson while speaking to Hector. It appeared as if she traveled to Tucson to meet with Hector when she needed to replenish her supply of Meth.

Digital images were taken of the conversations and attached to this report. Nothing further at this time.
